This Week's Speaker

Clay Nesler

Vice President, Global Energy and Sustainability, Johnson Controls, Inc.

In his role as vice president of global energy and sustainability for Johnson Controls, Nesler leads a worldwide team responsible for coordinating marketing, legislative affairs, resource management, product/service innovation and energy program management. He is currently working on converting the Empire State Building into a LEED certified building.

Nesler's responsibilities also include leading a professional services organization that develops collaborative planning tools and provides consulting services to Johnson Controls customers and third-party clients on a global basis. Since joining Johnson Controls in 1983, Nesler has held a variety of leadership positions in technology, new product development and marketing in both the United States and Europe.

Nesler received his bachelor's of science and master's of science degrees in mechanical engineering from the University of Illinois at Urbana-Champaign, and is listed as a co-inventor on 10 patents.

Other Important Information

- ◆ **Keep warm this week.**
- ◆ **REC Officers hope everyone's exams are going well.**
- ◆ **Don't forget about the location switch for Thursday's meeting to the Lowell Center - 610 Langdon St.**
