Profile

I am motivated and focused on results to meet my goals. While evaluating my level 3 candidacy to the United States Naval Academy I took a leave of absence from my college work (and enjoyed a partial ski season financed entirely by own work efforts). I returned to the UW for the fall 2008 semester in order to complete the prerequisites for the Grainger School of Business. I have a talent for understanding new concepts quickly and I work hard. I communicate well and maintain my composure under pressure. Teambuilding is a special area of interest for me and I work well in a group. I am looking for an internship to expand my skills and explore my interests in real estate and finance.
